International Health Insurance

What Is Insurance?

It is a contract you and the insurance company make which assures they will pay for certain medical expenses you may have.

THEY TAKE THE RISK – YOU DON’T!

The contract states what expenses the company will pay for, and how much.

Health Insurance is purchased when you are HEALTHY. Just as car insurance is purchased before you have a car accident!
Why must I have Health Insurance? Why must I have the mandatory plan?

United States Federal law requires you to have health insurance while you are under our sponsorship.

Health insurance is absolutely necessary in the U.S., especially on Long Island, since medical costs are VERY HIGH.

You may have another plan from your home country, however ours is mandatory while you are a student here.
The insurance plan provides benefits for you 
August 15\textsuperscript{th} through January 14\textsuperscript{th} 
for the Fall semester 
&
January 15\textsuperscript{th} through August 14\textsuperscript{th} 
for the Spring/Summer semester

\textbf{MED-EX} (Repatriation & Evacuation) is also included

\textbf{Charges} will be posted to your student account in \textbf{SOLAR} 
as soon as you register for classes.

How To Use the Insurance Plan and Claim Benefits

- Students should always visit Student Health Services in the west campus Infirmary FIRST for non-emergent health concerns (such as cough and cold).
  - This will waive your $50.00 deductible
  - After visiting the SHS, you may be referred to doctors, hospitals, laboratories, etc. outside the Infirmary, for a medical specialty.
  - For In-Network doctors, hospitals and pharmacies: visit Aetna DocFind
    - By using the PPO (preferred provider network) you will definitely save money on your bills!
  - Be sure to give them your referral from SHS and keep a copy for your records.
    - If you do not, you will receive a bill!

* If you obtain treatment for a non-emergency sickness when away from the campus & you cannot visit the SHS first, you must pay the $50 deductible to your medical provider(s).
