Medical Care Abroad

Global Health and Safety Team:
We maintain a 24/7 call center to assist you with everything from routine requests to complex medical situations. We coordinate emergency services with a worldwide network of Regional Physician Advisors.

GeoBlue Provider Community:
You will receive care from carefully selected, trusted providers who are English-speaking and Western-trained. Our contracted network providers and hospitals receive direct payment from us so you will not have to pay out of pocket and submit a claim.

Direct Pay:
It is customary for most overseas providers to require a guarantee of payment prior to providing non-emergency care. If Direct pay is not arranged prior to the visit, the physician may require payment up front from you. If you are going to see any provider, including one in our provider community, contact us to secure Direct Pay.*
Pre-trip Planning

If you are traveling with a medical condition, it is important to plan ahead.

If you have a medical condition, particularly one that requires regular treatment or medication, please contact our Global Health and Safety team prior to your departure. We’ll provide the resources you need to manage your health while you’re away. Our pre-trip planning services include:

- **Support finding appropriate care** - we will locate a provider in your destination and help you coordinate the care you need.
- **Assistance locating prescription medication** - we will determine if you can take your medication with you, if it is available in your destination, or if shipping is an option.

If you have any questions about the care you require while abroad, please contact us before you go.

Additional Services:

To meet your special needs, we will:

- Help you replace corrective lenses, medical devices or equipment
- Coordinate passport replacement
- Make referrals for legal assistance

Remember: Some medications are NOT available or legal outside of the US.
Go to the nearest emergency room and contact us from there.
